COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrapper and attest its correctness under oath, are daily giving in favor. The composition of Dr. Pierce's medicines is open to every body, Dr. Pierce being desirous of having the searchlight of investigation thrown upon his medicines, to show to the world that the better the composition of his medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the active virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption. Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and perseverance in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay or non-professional testimonials. They are not given away to be exaggerated with but are sold by all dealers in medicines at reasonable prices.

WORK TO UPLIFT COLORED RACE

Allen Endeavor League Touches on Question of Dancing.

What is already considered to be the largest and most interesting convention of the Allen Christian Endeavor League of the African Methodist Episcopal Church in the history of that denomination in this State is in session at Third Street A. M. E. Church. From the opening of its first session yesterday morning, when W. F. Denny, the president, struck the keynote in his annual address, in stating the aim and object of the gathering, ginger has been injected into the meetings.

The object of the society is to lift the younger generation of the race to a higher standard, through the process of a thorough religious and moral education. The Rev. W. H. Boone, who has been away from Africa for some years studying the ministry, spoke before the convention last night.

Among other things, he said that he had already spent two years at Shaw University, taking a medical course, and when he completed it would return to the jungles and administer whatever medical aid and spiritual strengthening needed by the natives, providing they allow such proceedings. Some one then offered prayer.

Adeline Ward, a public school teacher of Norfolk, spoke at length on the moral education of the younger element of the race. She said that her people have not learned enough. Yet she expressed herself in being favorable to not only the moral and religious education of her race, but their manners also.

Dr. Smith, of Richmond, a colored druggist, said that the point was a good one, but he had and some talk with Norfolk colored teachers and some of them should stop dancing.
